Software and Tools

Software and tools to develop students' autonomy towards academic writing:

1. Corpus of Contemporary American English (COCA) – http://corpus.byu.edu/coca/
2. The British AcademicWritten English Corpus (BAWE) – http://www.coventry.ac.uk/research/research-directories/current-projects/2015/british-academic-written-english-corpus-bawe/
3. The "Analyze my writing" – http://www.analyzemywriting.com that includes a lexical density calculator, and
4. The academic phrase bank of the University of Manchester – http://www.phrasebank.manchester.ac.uk
5. ...

You and your group must evaluate these tools (and others you may find relevant), and the result of the evaluation must be presented by the group in the next class (next Friday).
